# TypoMatrix

## Professional Document Services

### About Me

Hi! I'm Harsh, the creator of TypoMatrix. I specialize in converting messy, scanned, handwritten, or unformatted documents into clean, accurate, and professionally formatted files.

### Services Offered:

- PDF → Word Conversion
- Fast & Accurate Typing
- Handwritten → Digital Typing
- Document Formatting
- Image-to-Text Extraction
- Spacing, Grammar & Structure Fixing

### Why Choose Me?

- ✓ Fast Delivery
- ✓ Clean Formatting
- ✓ Unlimited Revisions
- ✓ Friendly Communication

## Before vs After Sample

### Before (Raw Messy File)

Photosynthesis is the process by which green plants and other organisms convert light energy into chemical energy. It occurs mainly in the chloroplasts of plants.

The overall equation is:

But in many cases, people write it incorrectly, like  $6CO_2 + 6H_2O \Rightarrow C_6H_{12}O_6 + 6O_2$  which is wrong.

Also note that the two stages of photosynthesis are:

1. Light-dependent reactions
2. Light-independent reactions (Calvin Cycle)

### After (Clean & Professional Formatting)

What is Photosynthesis?

Photosynthesis is the process by which green plants and other organisms convert light energy into chemical energy. It occurs mainly in the chloroplasts of plants.

The overall equation is:

But in many cases, people write it incorrectly, like-

which is wrong.

Also note that the two stages of photosynthesis are:

1. Light-dependent reactions
2. Light-independent reactions (Calvin Cycle)
